DESCRIPTION OF TECHNOLOGY

The goal is to develop a Practical Exam Planner web application. Currently, exams are being scheduled with Excel, Notepad, Emails and phone calls. This process is not visible to every stakeholder and this can lead to clashes between teams.

Simacs client wants to have a system in which you can schedule exams according to the availability of resources...

HUMAN VALUES

There is no need for improvements, the technology already helps the well-being of the users.

TRANSPARENCY

No, not at the moment

IMPACT ON SOCIETY

There shouldn't be any improvements, the technology does exactly what the stakeholders wanted.

STAKEHOLDERS

There are no need for improvements, every stakeholder is taken into account.

SUSTAINABILITY

No, not at the moment.

HATEFUL AND CRIMINAL ACTORS

We think the technology could use a security question to prove that you are a staff member in order not to have bad actors using this technology wrongfully

DATA

Not at the moment, no.

FUTURE

There are a few small changes we can apply, but we will not because of the time constraint.

PRIVACY

We are continuously working on being compliant with GDPR law.

INCLUSIVITY

No, the technology will only be used by our stakeholders.

DESCRIPTION OF TECHNOLOGY
The goal is to develop a Practical Exam Planner web application. Currently, exams are being scheduled with Excel, Notepad, Emails and phone calls. This process is not visible to every stakeholder and this can lead to clashes between teams.
Simacs client wants to have a system in which you can schedule exams according to the availability of resources...

IMPACT ON SOCIETY

Now that you have thought hard about the impact of this technology on society (by filling out the questions...

If you think about the real problem this technology is going to solve. If you think about the ability of this technology to solve the real problem. If you think about possible negative effects and whether this technology will contribute to a world you want to live in. If you think about all that, what improvements would you make? In technology? In context? In use?...

HATEFUL AND CRIMINAL ACTORS

Now that you have thought hard about how bad actors can impact this technology, what improvements would...

If you think about this technology being used to break the law, or avoid the consequences of breaking the law, or to be used against certain groups, or to attack the truth or to pit certain groups against each other. If you think about all of that, what improvements would you (want to) make? In the technology? In context? In use?...

PRIVACY

Now that you have thought hard about privacy and data protection, what improvements would you like to make?...

If you think about this technology invading someone's privacy or collecting personal data and if you think about the way this technology is compliant with prevailing law and mitigates dataprotection risks and concerns. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

HUMAN VALUES

Now that you have thought hard about the impact of your technology on human values, what improvements...

If you think about the impact of this technology on human values and needs. If you think about how this technology affects the identity of the user, the autonomy of the user (can the users make their own decisions?) and the health and well-being of the user. If you think about all that, what improvement would you (want to) make? In the technology?...

STAKEHOLDERS

Now that you have thought hard about all stakeholders, what improvements would you like to make? List them...

If you think about all stakeholders of this technology. If you think about stakeholders that are less obvious. If you think about the way certain stakeholders are affected by this technology and if you want to take them into consideration. If you think about all that, what would you (want to) improve? In the technology? In context? In use?...

DATA

Now that you have thought hard about the impact of data on this technology, what improvements would you...

If you think about the limitations of data. Things like subjectivity, incomplete datasets and so on. If you think about the way new insights are handled. If you think about the sustainability of the collection of data or the data that is collected from the users. If you think about all that, what would you (want to) improve? In the technology? In context?...

INCLUSIVITY

Now that you have thought hard about the inclusivity of the technology, what improvements would you like to...

If you think about accessibility to this technology. If you think about built in biases or automatic decisions that may be biased. If you think about who is benefitting from this technology and the diversity of the team that creates the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

TRANSPARENCY

Now that you have thought hard about the transparency of this technology, what improvements would you like t...

If you think about the communication on the way the technology works and the businessmodel. If you think about the explanation on automatic decisions that are made. If you think about complaint procedures and transparency on possible negative effects. If you think about all that, what would you (want to) improve? In the technology? In context?...

SUSTAINABILITY

Now that you have thought hard about the sustainability of this technology, what improvements would you like t...

If you think about the direct and indirect energy use and the materials that are used in the technology. If you think about the lifespan of the technology and the hidden environmental impact of the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

FUTURE

Impact Improvement: Now that you have thought hard about the future impact of the technology, what...

If you think about an utopian and a dystopian scenario. If you think about the way this technology can change the world. If you think about the consequences of a different party buying your technology. If you think about all that, what would you (want to) improve? In the technology? In context? In use? ...
