

<div><div>NAME: GriefBot</div><div>DATE: May 11, 2025 2:09 AM</div><div>DESCRIPTION OF TECHNOLOGY</div><div>Chatbot to chat to living relatives on the behalf of a deceased person</div></div> <div></div>	<div><div>HUMAN VALUES</div><div>There are no improvements I can suggest on this part</div></div> <div></div>	<div><div>TRANSPARENCY</div><div>N/A</div></div> <div></div>
<div><div>IMPACT ON SOCIETY</div><div>One improvement I will suggest is integrating a video call into the chatbot and have a 3D render of the persons face and voice and communicate with relatives and friends using the same technology the chatbot uses</div></div> <div></div>	<div><div>STAKEHOLDERS</div><div>No improvements</div></div> <div></div>	<div><div>SUSTAINABILITY</div></div> <div></div>
<div><div>HATEFUL AND CRIMINAL ACTORS</div><div>Since most of the problems will be possible through impersonation the only improvement is to make sure the security and access of this technology is secure and tight.</div></div> <div></div>	<div><div>DATA</div><div>Getting a better dataset because the data given is just not enough, messages do not have entire conversations so predicting how the deceased will communicate is practical impossible. So a better dataset with more messages and entire conversations will be a good start</div></div> <div></div>	<div><div>FUTURE</div></div> <div></div>
<div><div>PRIVACY</div><div>I will like to point out that there should be a way to have the deceased person consent on making the chatbot this can be done by agreeing whether or not to give access of data to be used for a chatbot when they die.</div></div> <div></div>	<div><div>INCLUSIVITY</div><div>No improvements this technology is available for everyone</div></div> <div></div>	<div><div>FIND US ON www.tict.io</div><div>THIS CANVAS IS PART OF THE TECHNOLOGY IMPACT CYCLE TOOL. THIS CANVAS IS THE RESULT OF AN IMPROVEMENTSCAN. YOU CAN FILL OUT THE FULL TICT ON WWW.TICT.IO</div><div><div>Fontys University of Applied Sciences</div><div></div><div></div></div></div>

NAME: GriefBot

DESCRIPTION OF TECHNOLOGY
Chatbot to chat to living relatives on the behalf of a deceased person

HUMAN VALUES

Now that you have thought hard about the impact of your technology on human values, what improvements...

If you think about the impact of this technology on human values and needs. If you think about how this technology affects the identity of the user, the autonomy of the user (can the users make their own decisions?) and the health and well-being of the user. If you think about all that, what improvement would you (want to) make? In the technology?...

TRANSPARENCY

Now that you have thought hard about the transparency of this technology, what improvements would you like t...

If you think about the communication on the way the technology works and the businessmodel. If you think about the explanation on automatic decisions that are made. If you think about complaint procedures and transparency on possible negative effects. If you think about all that, what would you (want to) improve? In the technology? In context?...

IMPACT ON SOCIETY

Now that you have thought hard about the impact of this technology on society (by filling out the questions...

If you think about the real problem this technology is going to solve. If you think about the ability of this technology to solve the real problem. If you think about possible negative effects and whether this technology will contribute to a world you want to live in. If you think about all that, what improvements would you make? In technology? In context? In use?...

STAKEHOLDERS

Now that you have thought hard about all stakeholders, what improvements would you like to make? List them...

If you think about all stakeholders of this technology. If you think about stakeholders that are less obvious. If you think about the way certain stakeholders are affected by this technology and if you want to take them into consideration. If you think about all that, what would you (want to) improve? In the technology? In context? In use?...

SUSTAINABILITY

Now that you have thought hard about the sustainability of this technology, what improvements would you like t...

If you think about the direct and indirect energy use and the materials that are used in the technology. If you think about the lifespan of the technology and the hidden environmental impact of the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

HATEFUL AND CRIMINAL ACTORS

Now that you have thought hard about how bad actors can impact this technology, what improvements would...

If you think about this technology being used to break the law, or avoid the consequences of breaking the law, or to be used against certain groups, or to attack the truth or to pit certain groups against each other. If you think about all of that, what improvements would you (want to) make? In the technology? In context? In use?...

DATA

Now that you have thought hard about the impact of data on this technology, what improvements would you...

If you think about the limitations of data. Things like subjectivity, incomplete datasets and so on. If you think about the way new insights are handled. If you think about the sustainability of the collection of data or the data that is collected from the users. If you think about all that, what would you (want to) improve? In the technology? In context?...

FUTURE

Impact Improvement: Now that you have thought hard about the future impact of the technology, what...

If you think about an utopian and a dystopian scenario. If you think about the way this technology can change the world. If you think about the consequences of a different party buying your technology. If you think about all that, what would you (want to) improve? In the technology? In context? In use? ...

PRIVACY

Now that you have thought hard about privacy and data protection, what improvements would you like to make?...

If you think about this technology invading someone's privacy or collecting personal data and if you think about the way this technology is compliant with prevailing law and mitigates dataprotection risks and concerns. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

INCLUSIVITY

Now that you have thought hard about the inclusivity of the technology, what improvements would you like to...

If you think about accessibility to this technology. If you think about built in biases or automatic decisions that may be biased. If you think about who is benefitting from this technology and the diversity of the team that creates the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use? ...
