

**NAME:** Java, Rest API, React, Spring Boot 

**DATE:** May 1, 2025 9:49 AM

**DESCRIPTION OF TECHNOLOGY**

**HUMAN VALUES** 

Reliability, Ease of Use, Privacy, Responsibility, Accessibility, Education

**TRANSPARENCY** 

Enhance transparency in algorithmic decision-making processes.  
 Provide clear and accessible documentation.  
 Establish channels for user and stakeholder engagement.  
 Conduct regular audits and assessments.  
 Continuously communicate updates and improvements.  
 Proactively engage with external experts and regulatory bodies.

**IMPACT ON SOCIETY** 

Enhanced Data Privacy: Implement advanced encryption techniques, anonymize user data, and limit data access to essential personnel. Make the app's data privacy practices transparent and user-friendly.  
 Accessible Design: Make the app more accessible and user-friendly. It should be usable by people of all abilities and ages. This could include features like text-to-speech, language translation, and easy-to-read displays.

**STAKEHOLDERS** 

Stakeholder Collaboration  
 Feedback Channels  
 Transparency  
 Non-User Considerations  
 Community Engagement

**SUSTAINABILITY** 

- 1.Enhanced Energy Efficiency
- 2.Sustainable Materials
- 3.Extended Lifespan
- 4.Responsible End-of-Life Management
- 5.Supply Chain Sustainability
- 6.Life Cycle Assessments
- 7.User Education and Awareness
- 8.Collaboration and Partnerships

**HATEFUL AND CRIMINAL ACTORS** 

Enhance Security Measures, User Verification, Education and Awareness, Accessibility, Transparency

**DATA** 

Data Accuracy, User Feedback, Data Protection, Transparency, Dynamic Updating

**FUTURE** 

Prioritize equity  
 Sustainable transportation integration  
 Data privacy and security  
 Community engagement  
 Environmental considerations  
 Flexibility and scalability  
 Transparency and accountability  
 Continuous evaluation and improvement

**PRIVACY** 

Clear Privacy Policy, User Control Over Data, Data Anonymization, Strong Security Measures

**INCLUSIVITY** 

Increase team diversity.  
 Provide diversity training.  
 Seek diverse user input.  
 Address biases and barriers.  
 Ensure accessibility features.  
 Engage diverse stakeholders.  
 Prioritize inclusive design.  
 Form partnerships with underrepresented groups.

# IMPROVEMENTSCAN - CANVAS - HELPSIDE Rest API, React, Spring Boot

**NAME:** Java, Rest API, React, Spring Boot  
**DATE:** May 1, 2025 9:49 AM  
**DESCRIPTION OF TECHNOLOGY**

### HUMAN VALUES

**Now that you have thought hard about the impact of your technology on human values, what improvements...**

If you think about the impact of this technology on human values and needs. If you think about how this technology affects the identity of the user, the autonomy of the user (can the users make their own decisions?) and the health and well-being of the user. If you think about all that, what improvement would you (want to) make? In the technology?...

### TRANSPARENCY

**Now that you have thought hard about the transparency of this technology, what improvements would you like t...**

If you think about the communication on the way the technology works and the businessmodel. If you think about the explanation on automatic decisions that are made. If you think about complaint procedures and transparency on possible negative effects. If you think about all that, what would you (want to) improve? In the technology? In context?...

### IMPACT ON SOCIETY

**Now that you have thought hard about the impact of this technology on society (by filling out the questions...**

If you think about the real problem this technology is going to solve. If you think about the ability of this technology to solve the real problem. If you think about possible negative effects and whether this technology will contribute to a world you want to live in. If you think about all that, what improvements would you make? In technology? In context? In use?...

### STAKEHOLDERS

**Now that you have thought hard about all stakeholders, what improvements would you like to make? List them...**

If you think about all stakeholders of this technology. If you think about stakeholders that are less obvious. If you think about the way certain stakeholders are affected by this technology and if you want to take them into consideration. If you think about all that, what would you (want to) improve? In the technology? In context? In use?...

### SUSTAINABILITY

**Now that you have thought hard about the sustainability of this technology, what improvements would you like t...**

If you think about the direct and indirect energy use and the materials that are used in the technology. If you think about the lifespan of the technology and the hidden environmental impact of the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

### HATEFUL AND CRIMINAL ACTORS

**Now that you have thought hard about how bad actors can impact this technology, what improvements would...**

If you think about this technology being used to break the law, or avoid the consequences of breaking the law, or to be used against certain groups, or to attack the truth or to pit certain groups against each other. If you think about all of that, what improvements would you (want to) make? In the technology? In context? In use?...

### DATA

**Now that you have thought hard about the impact of data on this technology, what improvements would you...**

If you think about the limitations of data. Things like subjectivity, incomplete datasets and so on. If you think about the way new insights are handled. If you think about the sustainability of the collection of data or the data that is collected from the users. If you think about all that, what would you (want to) improve? In the technology? In context?...

### FUTURE

**Impact Improvement: Now that you have thought hard about the future impact of the technology, what...**

If you think about an utopian and a dystopian scenario. If you think about the way this technology can change the world. If you think about the consequences of a different party buying your technology. If you think about all that, what would you (want to) improve? In the technology? In context? In use? ...

### PRIVACY

**Now that you have thought hard about privacy and data protection, what improvements would you like to make?...**

If you think about this technology invading someone's privacy or collecting personal data and if you think about the way this technology is compliant with prevailing law and mitigates dataprotection risks and concerns. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

### INCLUSIVITY

**Now that you have thought hard about the inclusivity of the technology, what improvements would you like to...**

If you think about accessibility to this technology. If you think about built in biases or automatic decisions that may be biased. If you think about who is benefitting from this technology and the diversity of the team that creates the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...
