

NAME: ScreenBuddy

DATE: April 30, 2025 11:03 PM

DESCRIPTION OF TECHNOLOGY

ScreenBuddy is a full-stack movie booking system that allows users to browse movies, select seats, and make real-time bookings. It features a React frontend, a Spring Boot backend, and supports live updates, user authentication, and theater-managed movie listings.

HUMAN VALUES

Limit excessive alerts

Offer usage insights (e.g., how often a user books)

Promote accessibility in design

TRANSPARENCY

Add an FAQ and feedback form

Show system status (e.g., WebSocket active/inactive)

IMPACT ON SOCIETY

Add fallback for WebSocket failure

Improve error handling and logging

Include clear user alerts for major updates

STAKEHOLDERS

Add a feedback form in the app

Talk to actual theater staff before release

SUSTAINABILITY

Choose green hosting providers

Monitor background tasks and reduce unnecessary network calls

HATEFUL AND CRIMINAL ACTORS

Add rate limiting and CAPTCHA for fake account prevention

Better verification for employee access

Logging and audit trails for booking actions

DATA

Add export/delete features

Document how data is used

Regularly clean outdated logs

FUTURE

Define open-source contribution guidelines

Build a community if the project scales

Keep values clear: useful, fair, user-first

PRIVACY

Add privacy policy in the UI

Encrypt all stored data

Make user settings more customizable

INCLUSIVITY

Add multilingual support

Support screen readers

Avoid assumptions in design (like 24/7 internet access)

DESCRIPTION OF TECHNOLOGY

ScreenBuddy is a full-stack movie booking system that allows users to browse movies, select seats, and make real-time bookings. It features a React frontend, a Spring Boot backend, and supports live updates, user authentication, and theater-managed movie listings.

IMPACT ON SOCIETY

Now that you have thought hard about the impact of this technology on society (by filling out the questions...

If you think about the real problem this technology is going to solve. If you think about the ability of this technology to solve the real problem. If you think about possible negative effects and whether this technology will contribute to a world you want to live in. If you think about all that, what improvements would you make? In technology? In context? In use?...

HATEFUL AND CRIMINAL ACTORS

Now that you have thought hard about how bad actors can impact this technology, what improvements would...

If you think about this technology being used to break the law, or avoid the consequences of breaking the law, or to be used against certain groups, or to attack the truth or to pit certain groups against each other. If you think about all of that, what improvements would you (want to) make? In the technology? In context? In use?...

PRIVACY

Now that you have thought hard about privacy and data protection, what improvements would you like to make?...

If you think about this technology invading someone's privacy or collecting personal data and if you think about the way this technology is compliant with prevailing law and mitigates dataprotection risks and concerns. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

HUMAN VALUES

Now that you have thought hard about the impact of your technology on human values, what improvements...

If you think about the impact of this technology on human values and needs. If you think about how this technology affects the identity of the user, the autonomy of the user (can the users make their own decisions?) and the health and well-being of the user. If you think about all that, what improvement would you (want to) make? In the technology?...

STAKEHOLDERS

Now that you have thought hard about all stakeholders, what improvements would you like to make? List them...

If you think about all stakeholders of this technology. If you think about stakeholders that are less obvious. If you think about the way certain stakeholders are affected by this technology and if you want to take them into consideration. If you think about all that, what would you (want to) improve? In the technology? In context? In use?...

DATA

Now that you have thought hard about the impact of data on this technology, what improvements would you...

If you think about the limitations of data. Things like subjectivity, incomplete datasets and so on. If you think about the way new insights are handled. If you think about the sustainability of the collection of data or the data that is collected from the users. If you think about all that, what would you (want to) improve? In the technology? In context?...

INCLUSIVITY

Now that you have thought hard about the inclusivity of the technology, what improvements would you like to...

If you think about accessibility to this technology. If you think about built in biases or automatic decisions that may be biased. If you think about who is benefitting from this technology and the diversity of the team that creates the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?

TRANSPARENCY

Now that you have thought hard about the transparency of this technology, what improvements would you like t...

If you think about the communication on the way the technology works and the businessmodel. If you think about the explanation on automatic decisions that are made. If you think about complaint procedures and transparency on possible negative effects. If you think about all that, what would you (want to) improve? In the technology? In context?...

SUSTAINABILITY

Now that you have thought hard about the sustainability of this technology, what improvements would you like t...

If you think about the direct and indirect energy use and the materials that are used in the technology. If you think about the lifespan of the technology and the hidden environmental impact of the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

FUTURE

Impact Improvement: Now that you have thought hard about the future impact of the technology, what...

If you think about an utopian and a dystopian scenario. If you think about the way this technology can change the world. If you think about the consequences of a different party buying your technology. If you think about all that, what would you (want to) improve? In the technology? In context? In use? ...
