

NAME: RealView AI

DATE: September 12, 2025 8:48 AM

DESCRIPTION OF TECHNOLOGY

RealView-functie: een AI-gestuurde tool die gebruikers informeert over bewerkte of gemanipuleerde content en hen motiveert om authentieke beelden te delen.

HUMAN VALUES

RealView moet niet straffen of controleren, maar ondersteunen. Het gaat om bewustwording, niet om schaamte. Daarom wil ik dat gebruikers zelf kunnen kiezen of ze de transparantie willen inschakelen. Ook zou het mooi zijn als er tips bij komen over hoe je op een eerlijke en positieve manier met beeld om kunt gaan.

TRANSPARENCY

Ik wil dat het duidelijk is wat RealView doet en hoe het werkt. Bijvoorbeeld een uitlegpagina of een pop-up die uitlegt waarom een bepaalde foto gelabeld wordt. Er moet ook een optie zijn om feedback te geven als je denkt dat de AI fout zit. Dit maakt de tool betrouwbaarder en eerlijker, wat past bij mijn waarde van transparantie.

IMPACT ON SOCIETY

Deze vraag is erg breed en overlapt met de vraag over human values, die ik al heb uitgewerkt.

STAKEHOLDERS

Belangrijk, maar al meegenomen bij privacy en transparantie. Daarom kies ik ervoor om deze niet apart uit te werken.

SUSTAINABILITY

RealView is een digitale toevoeging aan een bestaand platform. Energiegebruik is hier niet het grootste probleem, dus niet gekozen.

HATEFUL AND CRIMINAL ACTORS

Niet heel relevant. Het doel van RealView is bewustwording, het is geen systeem dat makkelijk misbruikt kan worden.

DATA

Dit is al behandeld bij de vraag over privacy en inclusiviteit, dus ik vond het niet nodig om die apart te doen.

FUTURE

Interessant, maar te speculatief. Ik focus liever op realistische verbeteringen die nu relevant zijn.

PRIVACY

Ik wil ervoor zorgen dat de AI alleen lokaal of tijdelijk beelden analyseert en dat de data niet wordt opgeslagen. De gebruiker moet ook kunnen aangeven of RealView hun foto's mag scannen of niet. Er moet een duidelijke privacyverklaring komen die uitlegt wat de AI wel en niet doet. Mensen moeten zich veilig voelen om iets te posten zonder het gevoel te hebben dat hun gegevens worden gebruikt zonder toestemming.

INCLUSIVITY

De AI moet getest worden op diverse groepen mensen (verschillende huidskleuren, gezichten, lichamen). Het systeem moet voor iedereen even goed werken, zonder vooroordelen. Ook moet de toon van de meldingen vriendelijk zijn, zodat niemand zich aangevallen of beoordeeld voelt. RealView moet inclusiviteit juist stimuleren, niet schaden.

DESCRIPTION OF TECHNOLOGY

RealView-functie: een AI-gestuurde tool die gebruikers informeert over bewerkte of gemanipuleerde content en hen motiveert om authentieke beelden te delen.

IMPACT ON SOCIETY

Now that you have thought hard about the impact of this technology on society (by filling out the questions...

If you think about the real problem this technology is going to solve. If you think about the ability of this technology to solve the real problem. If you think about possible negative effects and whether this technology will contribute to a world you want to live in. If you think about all that, what improvements would you make? In technology? In context? In use?...

HATEFUL AND CRIMINAL ACTORS

Now that you have thought hard about how bad actors can impact this technology, what improvements would...

If you think about this technology being used to break the law, or avoid the consequences of breaking the law, or to be used against certain groups, or to attack the truth or to pit certain groups against each other. If you think about all of that, what improvements would you (want to) make? In the technology? In context? In use?...

PRIVACY

Now that you have thought hard about privacy and data protection, what improvements would you like to make?...

If you think about this technology invading someone's privacy or collecting personal data and if you think about the way this technology is compliant with prevailing law and mitigates dataprotection risks and concerns. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

HUMAN VALUES

Now that you have thought hard about the impact of your technology on human values, what improvements...

If you think about the impact of this technology on human values and needs. If you think about how this technology affects the identity of the user, the autonomy of the user (can the users make their own decisions?) and the health and well-being of the user. If you think about all that, what improvement would you (want to) make? In the technology?...

STAKEHOLDERS

Now that you have thought hard about all stakeholders, what improvements would you like to make? List them...

If you think about all stakeholders of this technology. If you think about stakeholders that are less obvious. If you think about the way certain stakeholders are affected by this technology and if you want to take them into consideration. If you think about all that, what would you (want to) improve? In the technology? In context? In use?...

DATA

Now that you have thought hard about the impact of data on this technology, what improvements would you...

If you think about the limitations of data. Things like subjectivity, incomplete datasets and so on. If you think about the way new insights are handled. If you think about the sustainability of the collection of data or the data that is collected from the users. If you think about all that, what would you (want to) improve? In the technology? In context?...

INCLUSIVITY

Now that you have thought hard about the inclusivity of the technology, what improvements would you like to...

If you think about accessibility to this technology. If you think about built in biases or automatic decisions that may be biased. If you think about who is benefitting from this technology and the diversity of the team that creates the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

TRANSPARENCY

Now that you have thought hard about the transparency of this technology, what improvements would you like t...

If you think about the communication on the way the technology works and the businessmodel. If you think about the explanation on automatic decisions that are made. If you think about complaint procedures and transparency on possible negative effects. If you think about all that, what would you (want to) improve? In the technology? In context?...

SUSTAINABILITY

Now that you have thought hard about the sustainability of this technology, what improvements would you like t...

If you think about the direct and indirect energy use and the materials that are used in the technology. If you think about the lifespan of the technology and the hidden environmental impact of the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

FUTURE

Impact Improvement: Now that you have thought hard about the future impact of the technology, what...

If you think about an utopian and a dystopian scenario. If you think about the way this technology can change the world. If you think about the consequences of a different party buying your technology. If you think about all that, what would you (want to) improve? In the technology? In context? In use? ...
