Impact on society

What impact is expected from your technology?

This category is only partial filled.

What is exactly the problem? Is it really a problem? Are you sure?

Veel mensen hebben moeite om te begrijpen of hun medicijnen veilig samen gebruikt kunnen worden of of hun huidige medicatiegebruik gezondheidsrisico's kan veroorzaken. Dit gebrek aan kennis vergroot de kans op medicatiefouten, schadelijke interacties tussen medicijnen en mogelijke gezondheidscomplicaties.

Are you sure that this technology is solving the RIGHT problem?

This question has not been answered yet.

How is this technology going to solve the problem?

This question has not been answered yet.

What negative effects do you expect from this technology?

This question has not been answered yet.

In what way is this technology contributing to a world you want to live in?

This question has not been answered yet.

Now that you have thought hard about the impact of this technology on society (by filling out the questions above), what improvements would you like to make to the technology? List them below.

This question has not been answered yet.

TICT

Hateful and criminal actors

What can bad actors do with your technology?

This category is only partial filled.

In which way can the technology be used to break the law or avoid the consequences of breaking the law?

De Pharmapartners-applicatie kan misbruikt worden door ongeautoriseerde toegang tot gevoelige gezondheidsgegevens, wat kan leiden tot privacyschendingen of identiteitsdiefstal. Daarnaast bestaat het risico dat gebruikers opzettelijk onjuiste informatie invoeren, wat de betrouwbaarheid van het systeem kan ondermijnen.

Can fakers, thieves or scammers abuse the technology?

This question has not been answered yet.

Can the technology be used against certain (ethnic) groups or (social) classes?

This question has not been answered yet.

In which way can bad actors use this technology to pit certain groups against each other? These groups can be, but are not constrained to, ethnic, social, political or religious groups.

This question has not been answered yet.

How could bad actors use this technology to subvert or attack the truth?

This question has not been answered yet.

Now that you have thought hard about how bad actors can impact this technology, what improvements would you like to make? List them below.

This question has not been answered yet.

Privacy

Are you considering the privacy & personal data of the users of your technology?

This category is only partial filled.

Does the technology register personal data? If yes, what personal data?

De applicatie verzamelt persoonlijke gegevens, zoals gezondheidsinformatie en medicatiegebruik. Deze gegevens vereisen extra bescherming en zorgvuldige omgang.

Do you think the technology invades the privacy of the stakeholders? If yes, in what way?

This question has not been answered yet.

Is the technology is compliant with prevailing privacy and data protection law? Can you indicate why?

This question has not been answered yet.

Does the technology mitigate privacy and data protection risks/concerns (privacy by design)? Please indicate how.

This question has not been answered yet.

In which way can you imagine a future impact of the collection of personal data?

This question has not been answered yet.

Now that you have thought hard about privacy and data protection, what improvements would you like to make? List them below.

This question has not been answered yet.

TICT

Human values

How does the technology affect your human values?

This category is only partial filled.

How is the identity of the (intended) users affected by the technology?

De Pharmapartners-applicatie is niet bedoeld voor interactie tussen gebruikers, maar richt zich op het bieden van persoonlijke gezondheidsinformatie en medicatieadvies. Hierdoor heeft de app geen directe invloed op relaties tussen gebruikers, maar kan het wel een belangrijke rol spelen in hoe gebruikers hun gezondheid beheren.

How does the technology influence the users' autonomy?

This question has not been answered yet.

What is the effect of the technology on the health and/or well-being of users?

This question has not been answered yet.

Now that you have thought hard about the impact of your technology on human values, what improvements would you like to make to the technology? List them below.

This question has not been answered yet.

TICT

Stakeholders

Have you considered all stakeholders?

This category is only partial filled.

Who are the main users/targetgroups/stakeholders for this technology? Think about the intended context by answering these questions.

Name of the stakeholder

Gebruiker

How is this stakeholder affected?

-

Did you consult the stakeholder?

No

Are you going to take this stakeholder into account?

No

Name of the stakeholder

Huisartsen

How is this stakeholder affected?

-

Did you consult the stakeholder?

No

Are you going to take this stakeholder into account?

No

Name of the stakeholder

Apothekers

How is this stakeholder affected?

-

Did you consult the stakeholder?

No

Are you going to take this stakeholder into account?

No

Technology Impact Cycle Tool

TICT

Did you consider all stakeholders, even the ones that might not be a user or target group, but still might be of interest?

-

Now that you have thought hard about all stakeholders, what improvements would you like to make? List them below.

This question has not been answered yet.

TICT

Data

Is data in your technology properly used?

This category is only partial filled.

Are you familiar with the fundamental shortcomings and pitfalls of data and do you take this sufficiently into account in the technology?

De nauwkeurigheid van de gegevens in de Pharmapartners-app is van groot belang, vooral wanneer gebruikers hun medicatiedosering invoeren.

Aangezien gebruikers zelf verantwoordelijk zijn voor het invullen van deze informatie, bestaat het risico dat de dosis onnauwkeurig of verkeerd wordt ingevoerd, wat invloed kan hebben op het advies dat de app verstrekt.

How does the technology organize continuous improvement when it comes to the use of data?

This question has not been answered yet.

How will the technology keep the insights that it identifies with data sustainable over time?

This question has not been answered yet.

In what way do you consider the fact that data is collected from the users?

This question has not been answered yet.

Now that you have thought hard about the impact of data on this technology, what improvements would you like to make? List them below.

This question has not been answered yet.

Technology Impact Cycle Tool

TICT

Inclusivity

Is your technology fair for everyone?

This category is only partial filled.

Will everyone have access to the technology?

This question has not been answered yet.

Does this technology have a built-in bias?

De technologie in de Pharmapartners-app kan een ingebouwde bias bevatten, vooral door de gegevens die gebruikers invoeren. De app is afhankelijk van deze informatie, en als deze niet representatief of incorrect is, kan dit leiden tot vertekend advies. Bijvoorbeeld, als gebruikers bepaalde medicijnen niet melden of belangrijke informatie missen, kan de app onnauwkeurig gezondheidsadvies geven.

Does this technology make automatic decisions and how do you account for them?

This question has not been answered yet.

Is everyone benefitting from the technology or only a a small group?

Do you see this as a problem? Why/why not?

This question has not been answered yet.

Does the team that creates the technology represent the diversity of our society?

This question has not been answered yet.

Now that you have thought hard about the inclusivity of the technology, what improvements would you like to make? List them below.

This question has not been answered yet.

Technology Impact Cycle Tool

TICT

Transparency

Are you transparent about how your technology works?

This category is only partial filled.

Is it explained to the users/stakeholders how the technology works and how the business model works?

De doelgroep van de Pharmapartners-app bestaat voornamelijk uit ouderen, en we zijn ons ervan bewust dat deze groep specifieke behoeften en verwachtingen heeft. Daarom hebben we de applicatie zo gebruiksvriendelijk mogelijk ontworpen. We hebben ervoor gezorgd dat de app een logische en intuïtieve "flow" heeft, zodat gebruikers gemakkelijk door de verschillende stappen kunnen navigeren.

If the technology makes an (algorithmic) decision, is it explained to the users/stakeholders how the decision was reached?

This question has not been answered yet.

Is it possible to file a complaint or ask questions/get answers about this technology?

This question has not been answered yet.

Is the technology (company) clear about possible negative consequences or shortcomings of the technology?

This question has not been answered yet.

Now that you have thought hard about the transparency of this technology, what improvements would you like to make? List them below.

This question has not been answered yet.

Technology Impact Cycle Tool

TICT

Sustainability

Is your technology environmentally sustainable?

This category is only partial filled.

In what way is the direct and indirect energy use of this technology taken into account?

Buiten de servers waarop de applicatie draait is er niet veel energie nodig voor de applicatie.

Do you think alternative materials could have been considered in the technology?

This question has not been answered yet.

Do you think the lifespan of the technology is realistic?

This question has not been answered yet.

What is the hidden impact of the technology in the whole chain?

This question has not been answered yet.

Now that you have thought hard about the sustainability of this technology, what improvements would you like to make? List them below.

This question has not been answered yet.

Technology Impact Cycle Tool

TICT

Future

Did you consider future impact?

This category is only partial filled.

What could possibly happen with this technology in the future?

Als meer mensen de mogelijkheid hebben om snel te controleren of hun medicatie veilig is om samen te gebruiken, zou dit kunnen leiden tot een cultuur van meer zelfbewustzijn en preventieve zorg.

Sketch a or some future scenario (s) (20-50 years up front) regarding the technology with the help of storytelling. Start with at least one utopian scenario.

This question has not been answered yet.

Sketch a or some future scenario (s) (20-50 years up front) regarding the technology with the help of storytelling. Start with at least one dystopian scenario.

This question has not been answered yet.

Would you like to live in one of this scenario's? Why? Why not?

This question has not been answered yet.

What happens if the technology (which you have thought of as ethically well-considered) is bought or taken over by another party?

This question has not been answered yet.

Impact Improvement: Now that you have thought hard about the future impact of the technology, what improvements would you like to make? List them below.

This question has not been answered yet.
