## Impact on society

What impact is expected from your technology?

### What is exactly the problem? Is it really a problem? Are you sure?

To encounter the climate change, the member states of the European Union have decided to introduce road pricing, a vehicle has to pay a price per km at a certain place, date, and time

### Are you sure that this technology is solving the RIGHT problem?

because this way people are more conscious about to when they go somewhere by car

### How is this technology going to solve the problem?

With the road pricing your itinerary is measured and the driver has to pay a price per km at a certain place, date, and time.

### What negative effects do you expect from this technology?

some people may not like that they have to pay extra for driving

### In what way is this technology contributing to a world you want to live in?

With the road pricing some people may use the car less often, and because of this you have less CO2 emissions

### Now that you have thought hard about the impact of this technology on society (by filling out the questions above), what improvements would you like to make to the technology? List them below.
