**DESCRIPTION OF TECHNOLOGY**

**HUMAN VALUES** 

Het enigste wat ik zou willen verbeteren is dat er bij de suggesties zoals ik al eerder heb gezegd ook voorbeelden bij staan hoe je het op kan lossen voor de baby zijnde. En wat een mooi doel is voor in de toekomst is het correcte percentage zo hoog mogelijk krijgen. Zodat mensen nog beter geholpen kunnen wordend door het gebruik van de app.

**TRANSPARENCY** 

**IMPACT ON SOCIETY** 

Ik denk dat het wel makkelijker is als je naast een suggestie ook een voorbeeld geeft bij iedere suggestie. Bijvoorbeeld de baby heeft honger midden in de nacht. De app geeft na de hand van het huilen aan dat de baby honger heeft. Het zou dan makkelijk zijn als de app aangaf van "de baby heeft honger. Ik raad warme melk aan. Want op dit late tijdstip is warme melk het beste om de baby te geven zodat die weer rustig kan gaan slapen met een volle maag". (bijvoorbeeld)

**STAKEHOLDERS** 

**SUSTAINABILITY** 

**HATEFUL AND CRIMINAL ACTORS** 

**DATA** 

De enige verbetering (als ze die hebben) is vragen aan de gebruikers of ze blij of niet blij met de app zijn. Als de app dan bijvoorbeeld vaak foute suggesties geeft die niet werken. En de gebruiker dan aanbied om te wil helpen door het gehuil van hun baby en de oplossing te delen. Dat dit anoniem gebeurt en alleen gebeurt om in de toekomst deze fouten te voorkomen bij hunzelf en andere huilende baby's.

**FUTURE** 

**PRIVACY** 

**INCLUSIVITY**

**DESCRIPTION OF TECHNOLOGY**

**HUMAN VALUES** 

**Now that you have thought hard about the impact of your technology on human values, what improvements...**

If you think about the impact of this technology on human values and needs. If you think about how this technology affects the identity of the user, the autonomy of the user (can the users make their own decisions?) and the health and well-being of the user. If you think about all that, what improvement would you (want to) make? In the technology?...

**TRANSPARENCY** 

**Now that you have thought hard about the transparency of this technology, what improvements would you like t...**

If you think about the communication on the way the technology works and the businessmodel. If you think about the explanation on automatic decisions that are made. If you think about complaint procedures and transparency on possible negative effects. If you think about all that, what would you (want to) improve? In the technology? In context?...

**IMPACT ON SOCIETY** 

**Now that you have thought hard about the impact of this technology on society (by filling out the questions...**

If you think about the real problem this technology is going to solve. If you think about the ability of this technology to solve the real problem. If you think about possible negative effects and whether this technology will contribute to a world you want to live in. If you think about all that, what improvements would you make? In technology? In context? In use?...

**STAKEHOLDERS** 

**Now that you have thought hard about all stakeholders, what improvements would you like to make? List them...**

If you think about all stakeholders of this technology. If you think about stakeholders that are less obvious. If you think about the way certain stakeholders are affected by this technology and if you want to take them into consideration. If you think about all that, what would you (want to) improve? In the technology? In context? In use?...

**SUSTAINABILITY** 

**Now that you have thought hard about the sustainability of this technology, what improvements would you like t...**

If you think about the direct and indirect energy use and the materials that are used in the technology. If you think about the lifespan of the technology and the hidden environmental impact of the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

**HATEFUL AND CRIMINAL ACTORS** 

**Now that you have thought hard about how bad actors can impact this technology, what improvements would...**

If you think about this technology being used to break the law, or avoid the consequences of breaking the law, or to be used against certain groups, or to attack the truth or to pit certain groups against each other. If you think about all of that, what improvements would you (want to) make? In the technology? In context? In use?...

**DATA** 

**Now that you have thought hard about the impact of data on this technology, what improvements would you...**

If you think about the limitations of data. Things like subjectivity, incomplete datasets and so on. If you think about the way new insights are handled. If you think about the sustainability of the collection of data or the data that is collected from the users. If you think about all that, what would you (want to) improve? In the technology? In context?...

**FUTURE** 

**Impact Improvement: Now that you have thought hard about the future impact of the technology, what...**

If you think about an utopian and a dystopian scenario. If you think about the way this technology can change the world. If you think about the consequences of a different party buying your technology. If you think about all that, what would you (want to) improve? In the technology? In context? In use? ...

**PRIVACY** 

**Now that you have thought hard about privacy and data protection, what improvements would you like to make?...**

If you think about this technology invading someone's privacy or collecting personal data and if you think about the way this technology is compliant with prevailing law and mitigates dataprotection risks and concerns. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...

**INCLUSIVITY** 

**Now that you have thought hard about the inclusivity of the technology, what improvements would you like to...**

If you think about accessibility to this technology. If you think about built in biases or automatic decisions that may be biased. If you think about who is benefitting from this technology and the diversity of the team that creates the technology. If you think about all that, what improvements would you (want to) make? In the technology? In context? In use?...
